## PRaise FOR BEAR'S EMULSION

CURED HER COLD, RESTORED HER APPETITE AND BUILT UP HER RUN-DOWN SYSTEM.

Dr. John D. Bear, Elkhon, Va.  
Dear Sir: I had been complaining of a cough every winter for four or five years, during which time I lost flesh, had no appetite, felt very weak and run-down. I heard that Mrs. Robert Early praised your Emulsion for run-down systems and coughs, so I went over to see her one day and after she explained to me how it had benefited her I bought a bottle and began to improve after the first couple of days. On buying the second bottle I decided to wait before taking it. I found to my great pleasure that I had gained eight pounds while taking the second bottle. I can recommend it to anyone wishing something for a cough and a good tonic.

Yours very truly,  
Mrs. J. W. Simmons.

Bear's Emulsion tones up the stomach, builds up the system, gives appetite and gives strength to the body. We ask every run-down, nervous, aged, weak or anyone suffering with a weak lung, to try a bottle of Bear's Emulsion and if it does not do as claimed return empty bottle and get exactly what you paid for it.

For sale by Graham & Company and A. A. Clarke.—Adv.

## NEWS OF A DAY AS GATHERED UP ABOUT SCOTSDALE

### General Sweep of Vandalism Seems to Have Gone Over Town.

### THERMOMETERS ARE RUINED

No One With Curiosity to Know the Temperature Will Be Able to Satisfy Themselves Unless They Have Private Thermometer Notes.

Special to The Courier.  
SCOTSDALE, Feb. 7.—There has been a sweeping wave of vandalism going over this town for some nights past that has the people puzzled. Some one got into the A. M. C. A. building and in getting out again took to one of the windows in the basement, smashed the glass out and the thing about \$10 worth of damage. No arrests have been made in the matter as yet.

Not long ago a lot of people distributed thermometers to know the temperature. In most of the instances the thermometers which were sent out to some of the people who are interested in the weather, and most of them have been ruined. The knowledge of how low the mercury is at the moment is not known. The other morning it was said that the thermometer in the church had been broken and the people had applied to the church for a new one. The fact that the thermometer in the church was broken was also mentioned. If the thermometer in the church was broken, the people would not be able to know the temperature.

## SHOW THIS BOOK TO YOUR FRIENDS

Let Them Know About This Great Opportunity Offered to Our Readers.

Those who have already secured their Panama books from The Courier should show them to their friends. Never before in the history of newspaper and book publishing has such an offer been made. This book is a work of art. It is called "Panama and the Canal in Pictures and Prose," and is written by Willis J. Abbott, who is the author of many books of history and travel. This book is beautifully bound in tropical red velvet cloth, is twice as large as the usual size novel, and contains more than six hundred rare illustrations, many of which are reproduced from water color studies to full page size.

Your friends would indeed be proud to possess such a volume, and when it is made known to them that they can get it from The Courier for six certificates and the small expense of distribution they will quickly take advantage of the opportunity. At the present time it behooves all progressive people to learn all they can of this mighty achievement, for the great Canal will soon become a working factor among all the nations of the earth. Not only is the great engineering feat described in this book, but the country and its people are shown in every phase and from every angle, both in picture and in prose.

Taken as a whole, the story is complete, and nobody can get a better understanding of the subject, even though months were spent in the Zone, than could be gained by reading this interesting narrative.

In another column of this issue is printed a Panama certificate. Six of these certificates and expense amount shown therein will put you in possession of this \$4 volume without further cost. Clip that certificate today.

**RESINOL RELIEVED ITCHING AT ONCE**

And Completely Cured Skin Humors.

Nov. 1, 1912.—"At first little red spots were seen on my arms and legs, which were getting larger every day. They itched so much that I scratched myself until I bled. There were times when I stood up all night and scratched. I was troubled about three weeks, during which time I used every remedy I could get, but nothing seemed to do me any good whatever. Then, finally, I thought of trying Resinol Soap and Resinol Ointment. As soon as I applied Resinol Ointment I felt much relief. After using it a few times, I noticed the spots slowly fading away, and in about a month I was cured." (Signed) Adolph Schoen, 742 Shepherd Ave., Brooklyn, N. Y.

The soothing, healing balsams in Resinol Ointment and Resinol Soap, penetrate every pore of the skin, clearing it of all impurities, driving away eczema, rash, ringworm, psoriasis, and other eruptions, and making smooth and blackheads impossible. Prescribed by physicians for eighteen years. For free samples write to Dept. 16-52, Rosinol, Baltimore, Md. Every druggist sells Resinol Ointment (in opal jars, 50c and \$1.00) and Resinol Soap (50c per cake).

The evening service will be a union service at which time Dr. Charles E. Barker will deliver the address. Subject, "Health, Happiness and Religion."

**CHRISTIAN CHURCH.** Rev. Champ Clark Buckner of Irving Park, Chicago, will address the Men's Bible Class and occupy the pulpit at both morning and evening services. The interest manifested in Rev. Buckner's visit indicates a large attendance at all the services of the day.

**FIRST BAPTIST CHURCH.** South of Humber street. Wilbur Nelson, pastor. Sunday School at 9:45 A. M. Public worship at 11 A. M. and 7:30 P. M. Young People's meeting at 6:45 P. M. **DINING ROOM LINES.** Today's dining room shows some beautiful articles which the woman of moderate means, if she be only possessed of a little with her needle, may have for her dining room. One is a tablecloth of fine linen, the other a runner of the same material. The cloth has a most rich and elaborate effect, but though its completeness would occupy quite a length of time, it is of simple stitch and design. Gery Cluny lace was used as insertion and edging and the design is worked out entirely in French knots and outline stitch in even embroidery cotton. For the runner the same stitch is used, the cotton is in two shades—the stems, acrolia, leaves and scallops and some grape clusters being in dark blue, the remaining clusters in grey blue.

**Electricity in Largest Mine.** The largest coal mine in the world at Nokomis Ill., where 1,000 tons of coal are taken out every hour, is entirely operated by electricity.

## FURNACEMEN SULK WHILE OPERATORS SIT TIGHT AT \$2

Purchases of Mountain and Latrobe Coke Are Reported.

## FURNACE RESUMPTIONS SOON

Big Iron Market Here and Increase in Steel Production Will Require Greater Furnace Activity Which Will Be Reflected in Coke Trade.

From The Weekly Courier.  
PITTSBURGH, February 7.—Sales of Connellsville furnace coke for February shipment have been lighter than expected, there being no large tonnage closed for the month thus far. There have been quite a number of relatively small lots sold at various prices, standard grades not going below \$1.15, while the usual quotations are \$1.20 to \$1.25. It is suspected that one or two furnace interests which have been particularly averse to meeting the views of the majority of Connellsville operators have gone outside the region and have bought Latrobe or Upper Connellsville coke, and possibly also Mountain coke, for only for shipment in the next few weeks.

The contract market has shown no developments. The consumers who were recently asking prices appear to have concluded not to take hold on contract at this time, but to wait until their consumptive requirements are heavier when they would be less averse to paying prices asked.

Foundry coke continues in very moderate demand, but prices have shown no further weakening. The market stands quite unchanged as follows:

Prompt furnace \$1.20

Contract furnace \$1.20

Prompt foundry \$2.40

Contract foundry \$2.40

There has been no change in coke consumption in the past fortnight, though there was an increase earlier in February on account of furnaces resuming blast after breaking. There is now no tendency for furnaces to go out of blast, but rather conditions are such that they will continue to operate at a normal rate.

The Youngstown Sheet & Tube Company has bought 50,000 tons of late and mill pig iron from the former for delivery February 15 to June 15. Other sales of late pig iron have been made of 5,000 tons, 2,000 tons and 2,500 tons respectively, all at \$12.50, Valley, whereas the market for several weeks had been quoted at \$12.50, Valley, and there was one sale early in January of several thousand tons at as low as \$12.25. No quotation on late pig iron has been found below \$12.25, Valley, which is an interesting quotation \$12.50 and another and important feature is out of the market for the time being.

Thus the late pig market has advanced about a dollar a ton in 30 days. However, the situation has not been reported thus far in advance of the \$12 price which has lately been quoted as the market. The Westinghouse Electric & Manufacturing Company is purchasing for its plants 2,000 tons of pig iron for April to the end of the month, at \$12.50, Valley, and 20,000 tons.

The Snyder pig iron averages for January are announced at \$11.935, Valley for December a decline of 40.7 cents and at \$11.721, Valley, for basic a decline of 1.5 cents. These averages are computed from the actual sales of 1,000 tons a month.

Interest in the furnace coke has not been unusual since the iron to be shipped is expected to be in the market at the present rate it will be necessary for some additional furnace to blow in some of the furnace coke now flowing out long before the market reaches its lowest level and a fairly steady flow will be in until prices are reached at which it will be profitable to blow in the furnace coke.

Thus it will probably require a considerable advance in the market before any further flow will be in.

In addition to the improvement in pig iron there has been an advance of a dollar a ton in late and mill pig iron and most of the steel products have been advanced a dollar a ton at the first of the month by the steel mills. This advance is due to the fact that the steel mills have been looking for a fair price for their products and have been able to obtain it.

The steel market has not thus far felt the effects of the improvement in pig iron.

in the iron and steel market but it is hardly likely it will be as tardy in responding to the advance in the market as it was in responding to the decline in the late months of last year. The operators who were quoted \$2.00 for standard furnace coke as a minimum for any delivery are as firmly committed to that price as formerly, and here and there one finds a higher price. One standard brand was this week quoted at \$2.15 for prompt and while the buyers could not be obtained it is stated that the coke will not be sold for much if any less.

Again the rumor is going around in coke circles that a prominent merchant coke interest is short of the market and the prediction is made it will endeavor to cover some of its sales at a loss. Similar rumors have been circulated in the past without being officially confirmed.

# S. M. GOODMAN to RETIRE.

## \$25,000 Worth of Clothing and Furnishings to Be Sold Regardless of Cost or Value.

Connellsville's oldest, biggest and best Clothing and Furnishing House will soon be out of existence. The rapidly failing health of Mr. Goodman has forced this conclusion and makes it necessary that every article in the big store be disposed of within thirty days. Not a single article will be spared from an awful price slaughtering. The best will go with the cheapest—at prices that will positively suit your pocketbook. We need cash—need it badly. We need to get rid of our stocks—and quickly, too. Life means more than dollars, and to remain in charge of the store more than thirty days longer would be acting contrary to the advice of the best medical authority. Mr. Goodman's determination to live has brought about the most astounding cut-price sale ever dreamed of in these parts.

## Mr. Goodman's Personal Letter to the Public:

Dear Friends and Patrons:

It is indeed with regret that I am compelled to announce my permanent retirement from business. After 26 years of extremely pleasant business relations with thousands of Connellsville and Fayette County people, my leave will not be taken with joy. It was not until my physicians insisted that I could make up my mind to quit, and then only after taking my choice between life and death. I must seek a new climate, for a year, and possibly longer. This much has been determined by my physicians. My departure must be almost immediately, in fact I have been advised to go at once. Therefore my reason for offering the contents of my big store at figures hardly above the cost to manufacture the goods.

I wish to thank all my old friends for the liberal patronage they have given me for years back and assure them that I shall not forget the many kindnesses shown me and that upon regaining my health I hope to return to Connellsville to again take up my residence.

Yours very truly,  
S. M. GOODMAN.

## To the Boys:

There is hardly a boy in Connellsville who wears good clothes but who will say that the Goodman clothes are the best he ever wore. It's these boys who know good goods that we want to get in touch with before this sale opens. We want to sell you just one more suit before the Goodman store passes into history. We want you to enjoy the benefit of the extremely low prices that these fine new 1914 suits will go for. Come early so you will get the choicest of the finest suits.

## To the Men:

If this store ever sold a suit of clothes that did not give full satisfaction, we don't know of it. Just a few days prior to the determination of our physicians that we must get out of business and seek a change of climate, a consignment of several thousand dollars' worth of fine, new spring suits, overcoats and furnishings were dumped at our door. It's too late to countermand the order. The goods were made up especially for us, as is all fine clothing in this age. The manufacturers do not want it back—they make clothing to sell—not to buy. In this consignment there are some of the noblest suits you ever put your eyes on, suits that sell up to \$30.00. But during our retirement sale they will go for a whole lot less. Then there's the regular business and every day suits that can be bought at most anything you are willing to give. Remember, this is not a fake sale nor a bankrupt sale, but a sale forced upon us by rapidly failing health—a matter of life or death.

Come the first possible opportunity, because Goodman suits will not last long at the prices these are going for.

SALE OPENS TUESDAY MORNING, FEB. 10, AT 9 O'CLOCK. BE ON HAND WHEN THE DOORS OPEN—COME, SEE THE CROWD.
